Contents

1 Introduction

A simple document to test templates. Should be expanded to show how all markdown renders. . .

And a footnote [1]

This is a list

- A
- B
    - sub B
- C

and some more text.

And this is a really really long line with lots of text and blabla to ensure that must be doing a certain amount of line wrapping. That was a lot.

2 A bit about the preamble options

- title: 'Template test'
- subtitle: 'Markdown + Latex + pandoc'
- authors: ['Author Name 1', 'Author Name 2']
- main_author: 'Author Name 1'
- date: 2018–11–08
- institution: Lillebealt Academy (default: "UCL university college")
- email: 'test@example.com'
- left-header: 2018–11–08
- right-header: Template test
- skip-toc: false (Default: false)
