Contents

1   Introduction

A simple document to test templates. Should be expanded to show how all markdown renders. . .

And a footnote [1]

This is a list

- A

- B

    - sub B

- C

and some more text.

And this is a really really long line with lots of text and blabla to ensure that must be doing a certain amount of line wrapping. That was a lot.

2   A bit about the preamble options

- title: 'Template test'

- subtitle: 'Markdown + Latex + pandoc'

- authors: ['Author Name 1', 'Author Name 2']

- main_author: 'Author Name 1'

- date: 2018–11–07

- institution: Lillebealt Academy (default: "UCL university college")

- email: 'test@example.com'

- left-header: 2018–11–07

- right-header: Template test

- skip-toc: false (Default: false)
